- **Contract Opportunity Type:** Presolicitation (Updated)
- **All Dates/Times are:** (UTC-05:00) CENTRAL STANDARD TIME, CHICAGO, USA
- **Updated Published Date:** Aug 04, 2021 07:32 pm CDT
- **Original Published Date:** Apr 29, 2021 09:32 am CDT
- **Updated Response Date:** Aug 09, 2021 12:00 pm CDT
- **Original Response Date:** May 29, 2021 11:00 am CDT
- **Inactive Policy:** 15 days after response date
- **Updated Inactive Date:** Aug 24, 2021
- **Original Inactive Date:** Jun 13, 2021
- **Initiative:**
 - None

Classification

- **Original Set Aside:**
-
- **Product Service Code:** DA01 - IT AND TELECOM - BUSINESS APPLICATION/APPLICATION DEVELOPMENT SUPPORT SERVICES (LABOR)
- **NAICS Code:** 541511 - Custom Computer Programming Services

- **Place of Performance:**

Fort George G Meade , MD 20755

USA

DescriptionView Changes

The Defense Information Systems Agency (DISA) Defense Spectrum Organization (DSO) through the DISA Procurement Services Directorate (PSD) is seeking an Other Transaction (OT) Agreement to fulfill the prototyping need for Joint Electromagnetic Spectrum Operations (JEMSO) planning and management capabilities, enhanced Electromagnetic Spectrum (EMS) situational awareness, and improved interoperability with related service, joint and intelligence tools and systems. The objective of the prototype is to deliver initial capabilities for Command and Control (C2) and decision support capability areas. The prototype shall deliver system capabilities that will significantly advance the EMS planning capabilities, improve EMS data sharing, and enable Joint C2 of JEMSO that provides the EMS maneuver capability necessary for EMS superiority.

This work has never been done before within the Department of Defense (DoD), and requires a novel approach. The architecture and solutions must be flexible and enable new ideas and concepts to be tried and tested. Warfighter/user response and system output will inform decision making for the next development/build cycle. This development approach/methodology supports the Government's demand for delivering warfighting capability at the speed of relevance.

Amendment 0004 is issued for the following purpose:

1. **Respond to vendor question and provide clarification on EWPMT interoperability within the EMBM system (see attached document).**
2. **Revise Appendix A, "Statement of Need" to more accurately reflect RWP requirements.**
3. **All changes within the RWP document are highlighted in grey.**
4. **All other terms and conditions of the RWP remain the same.**

Amendment 0003 is issued for the following purpose:

1. **Extend the due date/response time of the Request for White Papers. The new response date and time for submission of White Papers is August 9, 2021, 12:00 pm CDT.**
2. **All changes within the RWP are highlighted in bright green.**

3. All other terms and conditions of the RWP remain the same.

Amendment 0002 is issued for the following purpose:

1. Issue clarification concerning the release of Government Furnished Information (GFI). See attached document.

Amendment 0001 is issued for the following purpose:

1. Provide Government response to vendor questions.
2. Provide clarification document for EWPMPT statement in Appendix A of the RWP (see attached document).
3. Revise page limitation for response page limits in section 2.1 of the RWP, "Formatting" and section 3.4.6 of the RWP, "Price (1 Page for ROM Narrative, No Limit for Basis of Estimate (BOE) Template)".
4. Revise Table 3 in section 3.4.6 of the RWP, "ROM Basis of Estimate Template".
5. Revise time zone to reflect "Central Daylight Time".
6. All changes within the RWP document are highlighted in yellow.
7. All other terms and conditions of the RWP remain the same.
